

Administrative Order
No. 30
May 13, 1993

SUBJECT : Providing Incentives for the Wildlife Breeding Industry

Pursuant to Executive Order 192 and the government policy towards the sustainable management and conservation of economically important wild fauna species and other related species with similar habitat requirements and in order to encourage the expansion of technical and financial investments in wildlife breeding, the following incentives are hereby provided to the wildlife breeding industry:

1. Representation with the local and international communities involved in wildlife breeding;
2. Computation of export fee per commodity to be paid by the permittee for the whole week shall be based on the US dollar buying rate of the Philippine National Bank (PNB) at the beginning of the working week;
3. Establishment of an express processing system for the issuance of CITES Permit and Wildlife Certification at the Protected Areas and Wildlife Bureau (PAWB). The PAWB Director, or his duly authorized representative, is hereby authorized to sign CITES Permit and Wildlife Certification;
4. The issuance of the Wildlife Farm Permit, particularly in the case of monkey species, shall be limited to the members of the Primate Exporters and Breeders Association of the Philippines (PEBAB). All applications for permit of a non-PEBAB member or other parties interested in the breeding of other wild fauna species shall be evaluated by the Committee accordingly;
5. The Conservation commitment required by DENR as embodied under the terms and conditions of the Wildlife Collector's Permit and Wildlife Farm Permit may either be undertaken individually by each PEBAP member or collectively as an association. In the case of the latter, prior consultation should be made by the association with PAWB before initiating such commitment project.
6. This order takes effect immediately.

ANGEL C. ALCALA
