

**DENR MEMORANDUM CIRCULAR**

No. 33

September 05, 1994

**SUBJECT : Preparation of Land Use Maps**

During the recently concluded PENRO-CENRO conferences and Davao MANCON, one of the main policy issues that cropped up was the allocation of DENR administered lands to their proper land uses. It is apparent that the sectoral bureaus/services have their own priorities that the need for proper land uses allocation guidelines is paramount.

While these guidelines are to be prepared, instruct your CENROs to prepare present (actual legal and illegal) land uses of their respective jurisdiction in a 1:50,000 scale map to be completed by the end of October 1994. The PENRO in turn, shall prepare their respective land use plans in the same scale of 1:50,000 to be completed by the end of the year 1994. The REDs will review and consolidate the PENRO plans for the Regional Land Use Plans to be ready before the end of the first quarter, CY 1995.

It is encouraged that the CENRO land use maps be publicly displayed for obvious reasons.

The Planning and Policy Office aside from formulating the land use guidelines shall monitor the progress of these instructions and study the inclusion of this important activity as a KRA for the respective CENROs, PENROs and REDs.

**FOR STRICT COMPLIANCE.**
